

Curriculum Intent

At Southwold Primary and Nursery School, our aim is that every child should learn from religions, reflecting on their own beliefs and opinions. Our intention is to encourage children to develop their sense of identity and belonging and enable them to flourish as individuals within their communities and as citizens in a diverse and global society, promoting mutual respect and tolerance.

We believe that RE has a cultural role, enriching children's knowledge, understanding and perspective. As a Values based school we feel that RE has an important role in underpinning our ethos and that the two subjects are closely allied.

At Southwold, RE is a vital part of learning as it provides the opportunity to become immersed in the rich tapestry of stories and practices which abound in all religions. It has close links with personal, social, emotional education, the strands of which address who we are and how we live together.

Curriculum Impact

All children will leave Southwold with:

- A respect for and sensitivity towards others, in particular, those whose faith and beliefs are different from their own.
- An ability to think about the big questions in life and ways of answering them.
- A sense of wonder and curiosity about cultures and beliefs other than their own.
